

BOOGY | Pendant Lamp

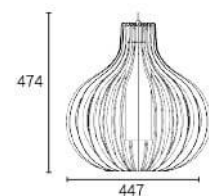

The BOOGY ceiling light can either be presented by itself or as part of a set, depending on the atmosphere and lighting effect you wish to create in your living space. Its decorative design and the warmth of the wood make it the perfect choice for bedrooms and corridors. The birchwood panels have been treated with anti-stain and anti-UV protective varnishes in order to ensure that they retain their original colour and brightness. The light source is located in a central polycarbonate tube to diffuse a soft and pleasant light throughout your interior.
